CLUB

IN THE MOOD TO FLY

2024-2025

LETTER FROM OUR LEADERSHIP TEAM

Dear Prospective Sponsors,

Our names are Jommy and Trevor and we have the honor of jointly serving as Co-Presidents for the 2024-2025 Design, Build, Fly team at Johns Hopkins, Baltimore (DBF at JHU). Our club is a relatively new establishment at JHU, and with that comes its battles, but that hasn't limited us one bit. Since leading the helm at DBF, we've outlined several objectives we've set out to accomplish within the upcoming academic year. You can find our goals at the top section of page 3.

We are more than a club, our mission is to enable dreamers and doers to find an oasis where individuals from different academic, cultural, and experiential backgrounds can share, build, and iterate on new ideas. Drafting up designs is one thing, finding the resources to build and enable us to compete at the highest levels of club-based aeronautics is another. That's where you come in. Like us, you were once 19 to 20-something-year-olds seeking your next adventure but needed a little nudge in the right direction from an elder or in our case a sponsor.

We greatly appreciate any support you can provide. Our team relies entirely on the monetary and material donations from individuals and organizations like yours to offer opportunities and experiences to the next generation of doers. Thank you for considering this opportunity on behalf of the DBF team at JHU.

Best,

Trevor Black *Jommy Fasehun*

Co-Presidents

OUR TEAM'S RESILIENCE

Many organizations globally fell victim to COVID-19 during the pandemic; unfortunately, DBF was one of them. The decline of our club led to a loss of almost all our members, material resources, and traction. Collectively, we are on a mission to change that trajectory. Last year marked the official relaunch of our club, where we gained 9 dedicated members, ourselves included.

Operating on a tight budget of about \$1000 with sheer willpower and dedication, we were able to build a functional aircraft that placed 67th out of 107 teams, many of which had well over 50 members and numerous sponsors, at the American Institute of Aeronautics and Astronautics (AIAA) annual competition.

GOALS AND BUDGET

- GAIN AT LEAST 5 SPONSORS
- RAISE AT LEAST \$14,200 TO:
 - UPGRADE ELECTRONICS AND MATERIALS SUCH AS FOAM BOARD TO WOOD AND CARBON FIBER
 - ACCOMMODATE TEAM TRAVEL
 - TAKE ON MORE COMPLEX PROJECTS
- INCREASE CLUB MEMBER COUNT BY 20 PEOPLE

BELLOW IS A BREAKDOWN OF OUR 2024-2025 BUDGET:

THANK YOU FOR
YOUR
CONSIDERATION

HOW TO SUPPORT US

ALL CHECKS MUST BE PAYABLE TO JOHNS HOPKINS UNIVERSITY (NOT THE CLUB).
